Hemostasis Innovation is Here.

AccuTrak™ 2.0

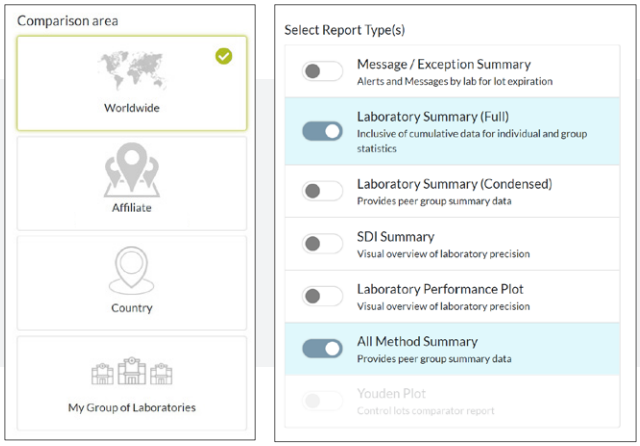

# Advance your quality control management strategy

AccuTrak 2.0 is a cloud-based quality control (QC) peer comparison program that enhances your QC management program. Automating and standardizing QC comparison with customizable peer groups, it is designed to help labs with QC monitoring programs ultimately enhance their overall quality and efficiency in Hemostasis testing.

## Automate and standardize QC comparison

### Comprehensive reports

- Monitor performance within a customizable peer group
- Select from seven exportable report types, with data filtered for a chosen peer group

### Streamlined practices, approval, and review

- Ensure unified QC practices across entire health networks
- Easily manage approval routes with eSignature
- Facilitate review with downloadable and printable QC documentation (e.g., audit trail reports)

ACL TOP® Family 70 Series

ACL TOP® Family 50 Series

ACL AcuStar®

ACL Elite/Elite Pro®

**Available for all Hemostasis reagents on all Werfen Hemostasis testing systems, AccuTrak 2.0 integrates with HemoHub Intelligent Data Manager and ProDx Remote Support Suite.**

werfen

## Enhance efficiency

### Simplified data entry and remote access

- Save time with configurable settings, smart warnings, and automated options for data upload
- Ensure targeted troubleshooting with QC report data
- Access online anytime from anywhere

### QC data upload

- QC data can be uploaded semiautomatically or fully automatically, reducing or eliminating manual upload time

**Semiautomatic QC data upload**

HEMOHUB INTELLIGENT DATA MANAGER → AccuTrak™ 2.0

**Fully automatic QC data upload**

## Support tools and security features protect patient information

- Easily access support tools, including on-demand tutorials
- Ensure user and patient protection with enhanced security features, including cloud-based user access and data encryption

**Advance QC management.** AccuTrak™ 2.0
